

# Excerpts from Grant Report

## Miami-Dade County Community Grants Program

---

### SUMMARY

Dimensions Dance Theatre of Miami performed an eclectic repertoire of classical and contemporary works in a three-performance run at the South Miami-Dade Cultural Arts Center from July 12-14, 2019. The program included two world premieres and three company premieres and was received with much enthusiasm.

---

### SUCCESS

Five premieres in one program is a big undertaking, but Dimensions proudly put together and executed a diverse bill that showcased the hallmarks of this burgeoning company - originality, creativity, virtuosity. Not only did the company commission new works by local artists, it acquired ballets from celebrated choreographers into its repertoire. This speaks to the success of this project and points to Dimensions' broader success within the local and national dance community.

---

### SIGNIFICANCE

Local arts and culture are another feather in the cap of Miami tourist attractions. Dimensions performances allow visiting patrons to experience the rich and vibrant spirit of Miami and South Florida reflected through the art of dance. By performing at SMDCAC, a beacon of performing arts in the Cutler Bay area, Dimensions is bringing affordable and superior dance programming to this underserved community.
